

The Definitive Web3 Address for Credit

As the global economy shifts toward RWA (Real World Asset) tokenization, the bridge between physical assets and the blockchain requires a singular, authoritative address. .com was for information; w3.credit is for settlement.

Category thesis

On-chain credit scoring and history.

High-value use cases

- On-chain credit history
- Verified score attestations
- Underwriting signals
- Credit as infrastructure
- Fraud reduction
- Compliant access

Ideal acquirer profile

- Private credit funds and institutional lenders
- Fintech platforms building programmable lending rails
- B2B settlement and invoicing providers
- Banks exploring tokenized collateral and on-chain credit model

Market authority anchors (publicly reported)

- AI.com — reported \$70,000,000 (2025; disclosed 2026)
